Participants

- Chen Li
- David Kim
- Dr. Samuel Adeyemi
- James Whitfield

Chen Li [00:00:00]

Good morning everyone, thanks for joining. Let's get started. Today we have two main topics — I want to cover the update on Pinnacle Education Group first and then we'll move to BlueSky Retail Group. Sound good?

David Kim [00:01:00]

Perfect. Yes, let's do that.

Chen Li [00:02:00]

So on Pinnacle Education Group — we're currently in Negotiation. I spoke with Dr. Samuel Adeyemi on Tuesday and the feedback was positive overall. They're really focused on solving student lifecycle tracking. That's their number one priority right now.

Dr. Samuel Adeyemi [00:05:00]

Yeah I was on that call too. Dr. Samuel Adeyemi specifically said and I'm quoting here — 'if MasterCRM can fix student lifecycle tracking we'll sign this quarter.' That's a direct quote. So we need to make sure our demo next week really hammers that use case.

David Kim [00:08:00]

Agreed. What's the competitive situation? Are Slate still in the picture?

Chen Li [00:09:00]

They submitted a proposal last week. Priced about fifteen percent below us. But Dr. Samuel Adeyemi told me off the record that they prefer MasterCRM's implementation support model. So we shouldn't compete on price — we should stay focused on the service wrapper and the faster go-live timeline.

James Whitfield [00:13:00]

On the technical side — Pinnacle Education Group's IT director raised a question about API rate limits last week. I sent over the Enterprise tier limits document. They need about 58k API calls per day which is well within our limits.

Chen Li [00:16:00]

Good. So action items on Pinnacle Education Group: David sends the API docs — done. I'll revise the proposal by Thursday with a stronger ROI section focused on student lifecycle tracking. And we need to lock in the exec sponsor call — Sarah, can you reach out directly to their CEO?

David Kim [00:18:00]

I'll send a note today. I have a contact through the industry council so I can get a direct line.

Chen Li [00:19:00]

Perfect. Okay moving to BlueSky Retail Group.

David Kim [00:21:00]

So BlueSky Retail Group — I'll take this one. We're at Discovery. The deal is worth \$560,000. Jessica Park is our champion, Chief Customer Officer. We've had three discovery calls and one full platform demo.

Chen Li [00:25:00]

What's the timeline looking like? Do we have a close date?

David Kim [00:26:00]

Their fiscal year ends June 30. So they're motivated to close before then. Budget is confirmed — \$560,000 is approved. The main blocker right now is legal. Their counsel has questions about the data processing agreement. Specifically around omnichannel customer view data and where it lives.

James Whitfield [00:30:00]

We can handle that. We support US-only data residency and we have supplemental GDPR documentation if needed. I'll put together a data flow diagram for their legal team this week.

David Kim [00:33:00]

That would be great. The other thing — Jessica Park mentioned that they evaluated Klaviyo two years ago and had a bad implementation experience. So we actually have an advantage there. We should reference our implementation NPS score in the next call.

Chen Li [00:36:00]

Good point. What's our current implementation NPS?

Dr. Samuel Adeyemi [00:37:00]

It's 71. Industry benchmark is around 41. That's a strong differentiator.

Chen Li [00:38:00]

Alright. Summary of actions: data flow diagram for BlueSky Retail Group legal by Friday, implementation NPS slide added to deck, and I'll send a recap email to Jessica Park with our legal response timeline. Any

other business before we close?

David Kim [00:41:00]

I think that covers it. Good session everyone.

Chen Li [00:42:00]

Agreed. Thanks all. Talk Thursday.
